Searchability IMPORTANT

Applicant Tracking Systems (ATS) are computers that process your resume to understand your work history and relevance to the job description. These findings typically include your work history, job titles, relevant skills and education, as well as contact information like your name, phone number, and email address.

Tip: Complete all checks below to ensure your resume is easily searchable by recruiters and ATS.

ATS tip		Adding this job's company name and web address can help us provide you ATS-specific tips. Add missing scan information
Contact info	  	You provided your phone number. You provided your email. You provided your physical address.
Job title match		The job title Backend Developer, from the job description is also found in your resume. We recommend this to be the case to ensure you're found when recruiters search by job title. Incorrect job title in the job description?
Education match		This job doesn't specify a preferred degree. Update required education level
Section headings	  	Name your experience section "Work History" or "Professional Experience" for ATS to recognize work sections. Objectives are not necessary in today's job market. Use a brief summary instead. We found the education section in your resume.

Date formatting

✗

ATS and recruiters prefer specific date formatting for your work experience. Please use the following formats: "MM/YY or MM/YYYY or Month YYYY" (e.g. 03/19, 03/2019, Mar 2019 or March 2019). We suggest updating these dates:

File type

✓

".docx" is the safest file type for most ATS.

✓

Your file name doesn't contain special characters that could cause an error in ATS.

✓

Your file name is concise and readable.

Hard skills

Hard skills enable you to perform job-specific duties and responsibilities. You can learn hard skills in the classroom, training courses, and on the job. These skills are typically focused on teachable tasks and measurable abilities such as the use of tools, equipment, or software. Hard skills have a high impact on your match score.

Tip: Match the skills in your resume to the exact spelling in the job description. Prioritize skills that appear most frequently in the job description.

Soft skills

Soft skills are your traits and abilities that are not unique to any job. Your soft skills are part of your personality, and can be learned also. These skills are the traits that typically make you a good employee for any company such as time management and communication. Soft skills have a medium impact on your match score.

Tip: Prioritize hard skills in your resume to get interviews, and then showcase your soft skills in the interview to get jobs.

We recommend that you update your resume and rescan.</div>	

Other keywords

Other keywords are words included in the job description more than 3 times and not hard skills or soft skills. These words are typically buzzwords, industry lingo, or company specific jargon that may be unique to the specific company and help your resume get noticed. Other keywords have a low impact on your match score.

Tip: Spend less time including these in your resume on a case-by-case basis.
